Crack or to make a leak in the ASC of 60000 feet cannot be repaired as it is. a crack in the ASC of an airplane not in service. Latest news.. Disaster! Picture of ASC with red flags. [1]:/images/thumbs/asc/asc1.jpg [2]:/images/thumbs/asc/asc2.jpg [3]:/images/thumbs/asc/asc3.jpg [4]:/images/thumbs/asc/asc4.jpg A: For the first one: `$(document).ready(function(){ $("#page_id").load("/content/pages/pigeon-solution.aspx"); });` For the second one: `$(document).ready(function(){ $("#page_id").load("/content/pages/crack.aspx"); });` For the third one: `$(document).ready(function(){ $("#page_id").load("/content/pages/debonding.aspx"); });` For the fourth one: `$(document).ready(function(){ $("#page_id").load("/content/pages/temp_expansion.aspx"); });` Basically, it's looking for any instance of the HTML id you have in your document. So if I'm doing it right, #page_id will be the first thing that you type in your document, so I'm telling it to look for a page in the content directory called "pigeon_solution.aspx". If I'm doing it wrong, the semantics of what I typed will be different, so be sure you know what you're doing. The problem in the fifth one is that /content/Pages is looking in the root directory, so your path should read /content/Pages/temp_expansion.aspx, as @CODE_ZOMBIE mentions. Updated 2: For the fifth one: `$(document).ready(function(){ $("#page_id").load("/content/pages/temp_expansion.aspx"); });` Oles Lanatin Oles Lanatin (Russian: Олесь Ланатин; January 1, 1919 – August 12, f678ea9f9e
